

## Publications : : 2004

391. G.E. Totten, L. Xie and K. Funatani, Eds., Modeling and Simulation for Material Selection and Mechanical Design, 2004, Marcel Dekker Inc., New York, NY.
392. G.E. Totten, "Heat Treating in 2020: What are the Most Critical Issues and What Will the Future Look Like?", *Heat Treatment of Metals*, 2004, Vol. 31, No. 1, p. 1-3.
393. G.E. Totten, M. Przylecka, W. Gestwa, and D. Pye, "Chapter 29 – Heat Treatment", in Smithells Metals Reference Book Eighth Edition, Eds. W.F. Gale and T.C. Totemeier, 2004, Elsevier, New York, NY, p. 29-1 – 29-66.
394. K. Funatani, L.C.F. Canale and G.E. Totten, "Coat Forming Oils Do More Than Cool", *Heat Treating Progress*, 2004, Vol. 4, No. 2, p. 33-35.
395. G.E. Totten, "In Context: A Timeline of Highlights from the Histories of ASTM Committee D02 and the Petroleum Industry", *ASTM Standardization News*, 2004, June, p. 18-27.
396. V. Raghunathan, N. Gopinath, G.E. Totten and L.C.F. Canale, "Modern Mesh Belt Sintering Furnaces Meet Emerging Demands", *Industrial Heating*, 2004, June, p. 41-44.
397. G.E. Totten and H. Liang, Eds., Surface Modifications and Mechanisms: Friction, Stress and Reaction Engineering, 2004, Marcel Dekker, New York, NY.
398. G.E. Totten and H. Liang, Eds., Mechanical Tribology: Materials, Characterization and Applications, 2004, Marcel Dekker, New York, NY.
399. G.E. Totten, K. Funatani and L. Xie, Eds., Handbook of Metallurgical Process Design, 2004, Marcel Dekker, New York, NY.
400. L.C.F. Canale, G.E. Totten and D. Pye, "Heat-Treating Process Design", in Handbook of Metallurgical Process Design, Eds. G.E. Totten, K. Funatani and L. Xie, 2004, Marcel Dekker, New York, NY, p. 453-505.
401. M. Przylecka, W. Gestwa, K. Funatani, G.E. Totten and D. Pye, "Design of Carburizing and Carbonitriding Processes", in Handbook of Metallurgical Process Design, Eds. G.E. Totten, K. Funatani and L. Xie, 2004, Marcel Dekker, New York, NY, p. 507-543.
402. H. Liang, G. Xu, and G. Totten, "Mechanical and Corrosive Wear of Heat Treated Materials and Protection with Coating - An Overview", *Inżynieria Powierzchni (Surface Engineering)*, 2004, No. 3, p. 3-13.
403. Guizhen Xu, Hong Liang, George Totten, and Jiajun Liu, "Engine Tribology and Surface Modification Technology", *Inżynieria Powierzchni*, 2004, 4, p. 8-18.
404. L.C.F. Canale and G.E. Totten, "Quenching Technology: A Selected Overview of the Current State-of-the-Art", 59<sup>o</sup> Congresso Annual Da ABM/59<sup>th</sup> Annual Congress International, 17-21 julho de 2004, Sao Paulo, Brazil, p. 3705-3716. .
405. L.C.F. Canale, G.E. Totten, R.R. Blackwood, L.M. Jarvis and D.G. Hoffman, "An Overview of Non-Quench -Related Problems Often Attributed to the Quenchant and Quenching Process", 59<sup>o</sup> Congresso Annual Da ABM/59<sup>th</sup> Annual Congress – International, 17-21 julho de 2004, Sao Paulo, Brazil, p. 3692-3704 .

406. G.E. Totten, "Heat Treating: Current Status and Projected Future Technology Developments", 2003, ASTRA-2003 - International Conference on Surface Modification Technologies (SMT-XVII)/Current Status Seminar of the International Federation of Heat Treatment and Surface Engineering (IFHTSE), Hyderabad, India, November 3-6, 2003, p. 20-23.
407. G.E. Totten, N.I. Kobasko, N. Gopinath, L.C.F. Canale, "Intensive Quenching as a Viable, Energy Efficient, Environmentally Friendly Replacement for Carburizing and Induction Heat Treatment", 2003, ASTRA-2003 - International Conference on Surface Modification Technologies (SMT-XVII)/Current Status Seminar of the International Federation of Heat Treatment and Surface Engineering (IFHTSE), Hyderabad, India, November 3-6, 2003, p. 71-75.
408. L.C.F. Canale and G.E. Totten, "Eliminate Quench Cracking with Uniform Agitation", Heat Treating Progress, 2004, July/August, p. 27-30.
409. N.I. Kobasko and G.E. Totten, "Quench System Design", in New Processes of Heat Treating, Eds. Mecludov and V.M. Shuleyev, from Conference in Karkov, 2004, Published by Ukrainian Academy of Sciences, Kiev, Ukraine, p. 94-111.
410. N.I. Kobasko, M.A. Aronov, J.A. Powell, L.C.F. Canale and G.E. Totten, "Intensive Quenching Process Classification and Applications", Heat Treatment of Metals, 2004, Vol. 31, No. 3, p. 51-58.
411. N.I. Kobasko and G.E. Totten, "Design of Industrial Quenching Processes", WSEAS (World Scientific and Engineering Academy and Society) and IASME Conferences, Corfu, Greece, August 17-19, 2004, Paper Number 488-512. see: <http://www.wseas.com/>
412. L.C.F. Canale and G.E. Totten, "Elimination of Quench Cracking by Controlling Agitation Uniformity", Transactions of Materials and Heat Treatment (China), Proceed. of the 14<sup>th</sup> IFHTSE Congress, Shanghai, China, October 2004, Vol. 25, No. 5, p. 457-461.
413. I. Felde, T. Reti, S. Segerberg, J. Bodin, G.S. Sarmiento and G.E. Totten, "Numerical Methods for Safeguarding the Performance of the Quenching Process", Transactions of Materials and Heat Treatment (China), Proceed. of the 14<sup>th</sup> IFHTSE Congress, Shanghai, China, October 2004, Vol. 25, No. 5, p. 519-521.
414. N.I. Kobasko and G.E. Totten, "Design of Industrial Quenching Processes", Transactions of Materials and Heat Treatment (China), Proceed. of the 14<sup>th</sup> IFHTSE Congress, Shanghai, China, October 2004, Vol. 25, No. 5, p. 527-530.
415. L.C.F. Canale, G.S. Sarmiento, G.E. Totten, I. Felde and R.N. Penha, "Characterization of the Surface Temperatures and Heat Transfer Properties of Fresh and Used Vegetable Oils Relative to Mineral Oil using HT-Mod and Abaqus", Abaqus – Cuarta Reunion Argentina de Usuarios de Abaqus, Buenos Aires, Argentina, November 11-12, 2004.
